

**REMARKS**

This communication is a timely response to a final rejection having a notification date of June 08, 2009. Claims 17 and 20-30 were rejected. The final rejection made Applicants aware of the need to reference in the specification the prior applications to which priority is being claimed. Applicants are herein requesting amendment to the specification to comply with 37 CFR 1.78(a).

In the first Official Filing receipt of this application that was mailed on August 24, 2001, the Domestic Priority data of the application was correctly identified. Therefore, a petition under 37 CFR 1.78(a) and a surcharge under 37 CFR 1.17(t) are not required. Applicants are herein filing an amendment to the first sentence(s) of the specification to comply with MPEP section 201.11. Acceptance of this amendment is earnestly requested to reduce the number of issues remaining for appeal of this application.

In Applicants' last two communications, the Applicants brought to the Examiner's attention the fact that information disclosure statements previously filed by Applicants on 04-13-04 and 07-06-05 were placed in the application file without being considered. Applicants again request that the information in those statements be officially made of record and acknowledgement of each reference made by the examiner. Applicants thank the Examiner for the time and effort spent on the examination of this application.

Respectfully submitted,
